

Workload and Quality of Work-Initiative

No to the budget cuts!

Join the assembly: 10 June 2026, 5:30-7:30 PM
FAKTory, Universitätsstrasse 9, 1010 Vienna

Much of the staff at the University of Vienna experience an **excessive workload**, often coupled with a **lacking perspective of continuous employment**. This impacts negatively on the quality of our **research, teaching, supervision, academic self-administration, public outreach (third mission), and service to the field**, all of which constitute vitally important tasks for a public university.

- What are the issues that affect different employment groups?
- What are the possible solutions for each issue and at what level should they be implemented (e.g. Ministry, Rectorate, Faculties, Departments)?
- What forms of mobilization are necessary to reach our goals?
- What other groups are active on these issues in Vienna and elsewhere?

Read the document with the Initiative's preliminary thoughts here!
